To Whom It May Concern:

Pursuant to the Illinois Freedom of Information Act., I hereby request the following records:

Public reports have stated that the Los Angeles Police Department has made use of services from Justice and Security Strategies, Inc. (JSS). (<http://newweb.jssinc.org/wp-content/uploads/2014/11/Spotlight-on-Operation-LASER.pdf>)

Therefore, I am requesting documents related to the implementation of JSS as they may have been used in Chicago. I hereby request:

* Any software and algorithms developed for the implementation of JSS. I'm particularly interested in any algorithms that have a public policy outcome, such as providing guidance on a policy or an assessment of an individual. More generally, I would like any software that was developed by or with, given to, used by, purchased or licensed to this agency for implementation of the above referenced program. This would include original source code, any compiled binaries (also known as executables), spreadsheets, program scripts, and other digital materials used to calculate any data in the above program. It would also include the input training data for machine learning algorithms. Collectively, these responsive materials will be referred to as "the software" in the following paragraphs.

* All instructional materials, presentations and presentation materials (including recorded video and audio, PowerPoint files, prepared remarks, and slides formats), and other guidance on the use of "the software." This includes any notes taken during meetings
